Software Developer

melakmebit75@gmail.com | [LinkedIn](#) | [GitHub](#)

Professional Summary

Motivated and detail-oriented Software Developer with hands-on experience in building scalable web applications using modern technologies such as React, Django, PHP, and Node.js. Passionate about crafting responsive, user-friendly interfaces and robust backend systems. Skilled in collaborating within cross-functional teams, solving complex problems, and delivering high-quality code that meets user needs and business goals.

Education

Bachelor of Science in Computer Science

Haramaya University, 2025

Technical Skills

- Frontend: React, Next.js, Bootstrap, TailwindCSS, JavaScript (ES6+), HTML5, CSS3
- Backend: Django, Node.js, PHP
- Database: MySQL, SQLite, MongoDB
- Tools & Version Control: Git, GitHub
- Others: RESTful APIs, Responsive Design, Debugging & Testing

Work Experience

Intern — Center for Digital Health Implementation Science (CDHIS)

Project Management System (PMS) | 2024

- Collaborated on developing a comprehensive web-based Project Management System to streamline task assignment and team tracking.
- Implemented frontend components using React and TailwindCSS for a clean and responsive interface.
- Assisted in backend configuration with Django and API integration for user authentication and data handling.
- Contributed to system testing, feature validation, and documentation of user requirements.

Major Projects

Phone LCD Online Store — msglcd.com

- Developed a full-featured e-commerce platform for selling phone LCDs and accessories using PHP, Bootstrap, and JavaScript.
- Integrated product management, cart, wishlist, and checkout functionality.

Holy Trinity Canberra Orthodox Tewahedo Church Portfolio Website

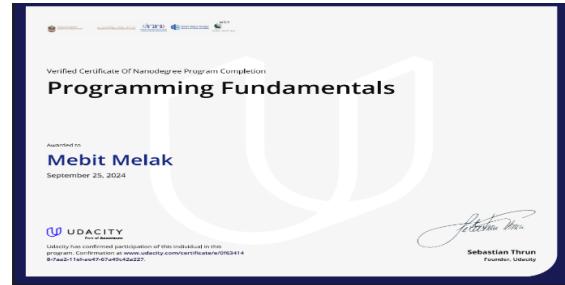

holytrinitycanberra.org.au

- Designed and built a modern, responsive website to improve community engagement and event management.
- Built with React and TailwindCSS, optimized for fast loading and accessibility.

Certifications

Fundamentals of Programming Udacity | 2024

Learned essential programming concepts, including variables, loops, functions, and data structures, with hands-on coding practice to build a solid foundation in software development.

Android Developer Fundamentals Udacity | 2024

Acquired hands-on experience in building Android applications using Java and Kotlin, understanding Android Studio, layouts, user interface design, and app lifecycle management.

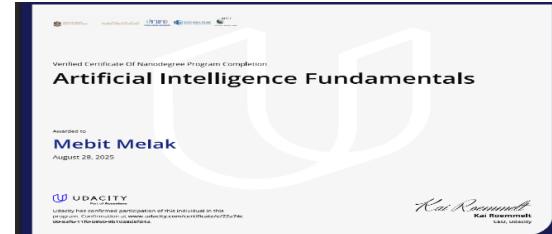

Data Analysis Fundamentals Udacity | 2024

Developed practical skills in collecting, cleaning, and analyzing data using tools like Excel, Python, and SQL. Learned to visualize data, identify trends, and generate actionable insights for informed decision-making.

Artificial Intelligence Fundamentals Udacity | 2025

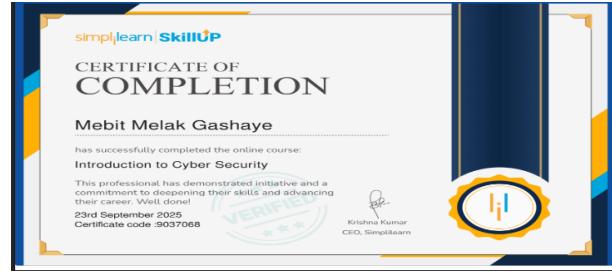

Gained practical knowledge of core AI concepts including intelligent agents, search algorithms, and basic machine learning techniques.

Introduction to Cybersecurity

Simplilearn SkillUp | 2025

Gained foundational knowledge of cybersecurity principles, including threat identification, network security, risk management, and basic protective measures to safeguard digital systems and data.
